# *Dedication*

This year's RETROSPECT is dedicated to a very special person. Though he has been here only a few years, his participation in school and community activities has enriched the lives of those he has come in contact with. As both teacher and friend he is ready at anytime to help someone with a problem. Therefore, we take great pride in dedicating the 1976 Retrospect to . . .

CLA

SES

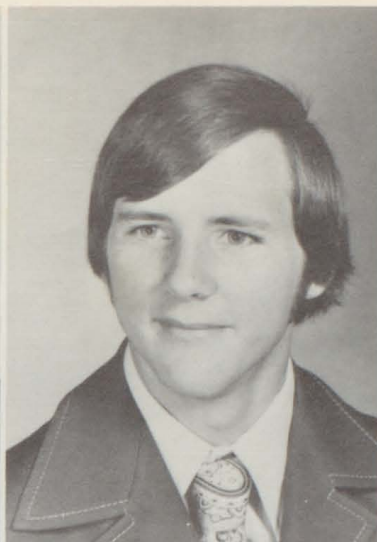

*TO BE A SENIOR is the ambition of every freshman that ever entered a high school; it's the determination of every sophomore and the next step for every junior. This exalted position is looked on with awe as one of that can be filled by a plucky few who have escaped the ax in their math classes and hurdled the obstacles of their chemistry classes. This senior is a well rounded individual who has a nickname for every teacher in the school, can cheat on tests with the utmost finesse, and can smell a crap course a year in advance. In a way they are "King of the Mountain."*

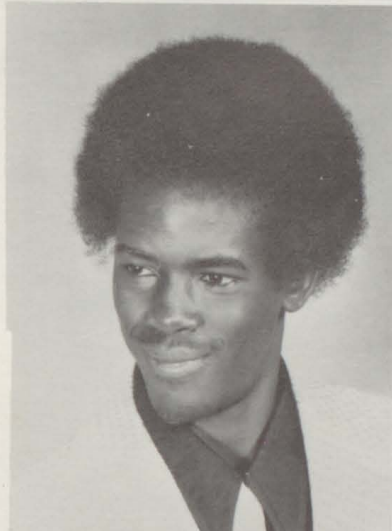

*But to the senior, this last year is a form of triumph. It is testimony that they have been through one of the best high schools in the area. It means that they will be on their own and freed from this one responsibility only to enter into new and bigger ones. To the senior, this last year is really nothing but the end of the beginning.*

## AMERICA: WHAT SUSTAINS US

When my American History class was asked to write an essay on a bicentennial theme, I thought, "Here we go again. Another essay, some more work!"

I could write on how the U. S. is in a terrible situation, how rotten the world is. But my conscience said, "No! Be optimistic." I could write on how we have weathered storm after storm and would come out on top again. But my conscience said, "No! Be realistic."

Then, on September 18, something happened. It was like the gold at the end of a rainbow, and in the form of a human being. A Vietmanese refugee, Nyguen Dong, visited our school. He told us how he had left his native country in the midst of the Vietnam turmoil. He had found a sponsor and had come to live in Warner Robins.

"Are you married?" came a question. Dong's head slumped down; he looked up remorsefully, "Yes, I am married and have three children; they are still in Vietnam." A strange feeling hit me. An empty, hateful feeling. But then, after finding out Dong was a Christian, the feeling left and the essay came to mind. Here was a man, who though having no family, no friends, could keep his sanity; even his sense of humor. What was it? What made him go on? Faith was the only answer.

You may ask, "What does this have to do with our bicentennial?" Just think, in 1776 our forefathers had to fight for freedom. They even fought against their distant relatives in England. What sustained them? Faith was

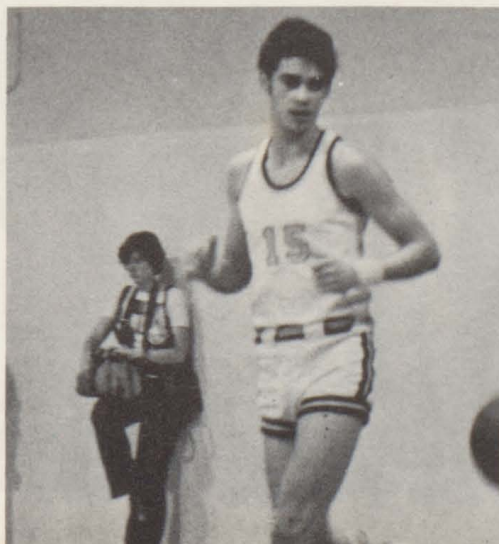

the only answer. Faith that God would show them the ideals to strive for, the mountains to climb. All of their solutions may not have been correct, but they believed in them.

As 1976 and our two-hundredth anniversary approaches, this great country faces a tough road ahead. There are threats of war abroad, and at home poverty and crime are running rampant. Again you may ask, "What is the answer?" The answer is faith.

If we can keep our faith as those men of our early heritage did; if we can keep the faith that preserved the Union; if we can keep the faith that Nathan Hale had when he looked up at his death rope and said, "I regret that I have but one life to give for my country," we will survive.

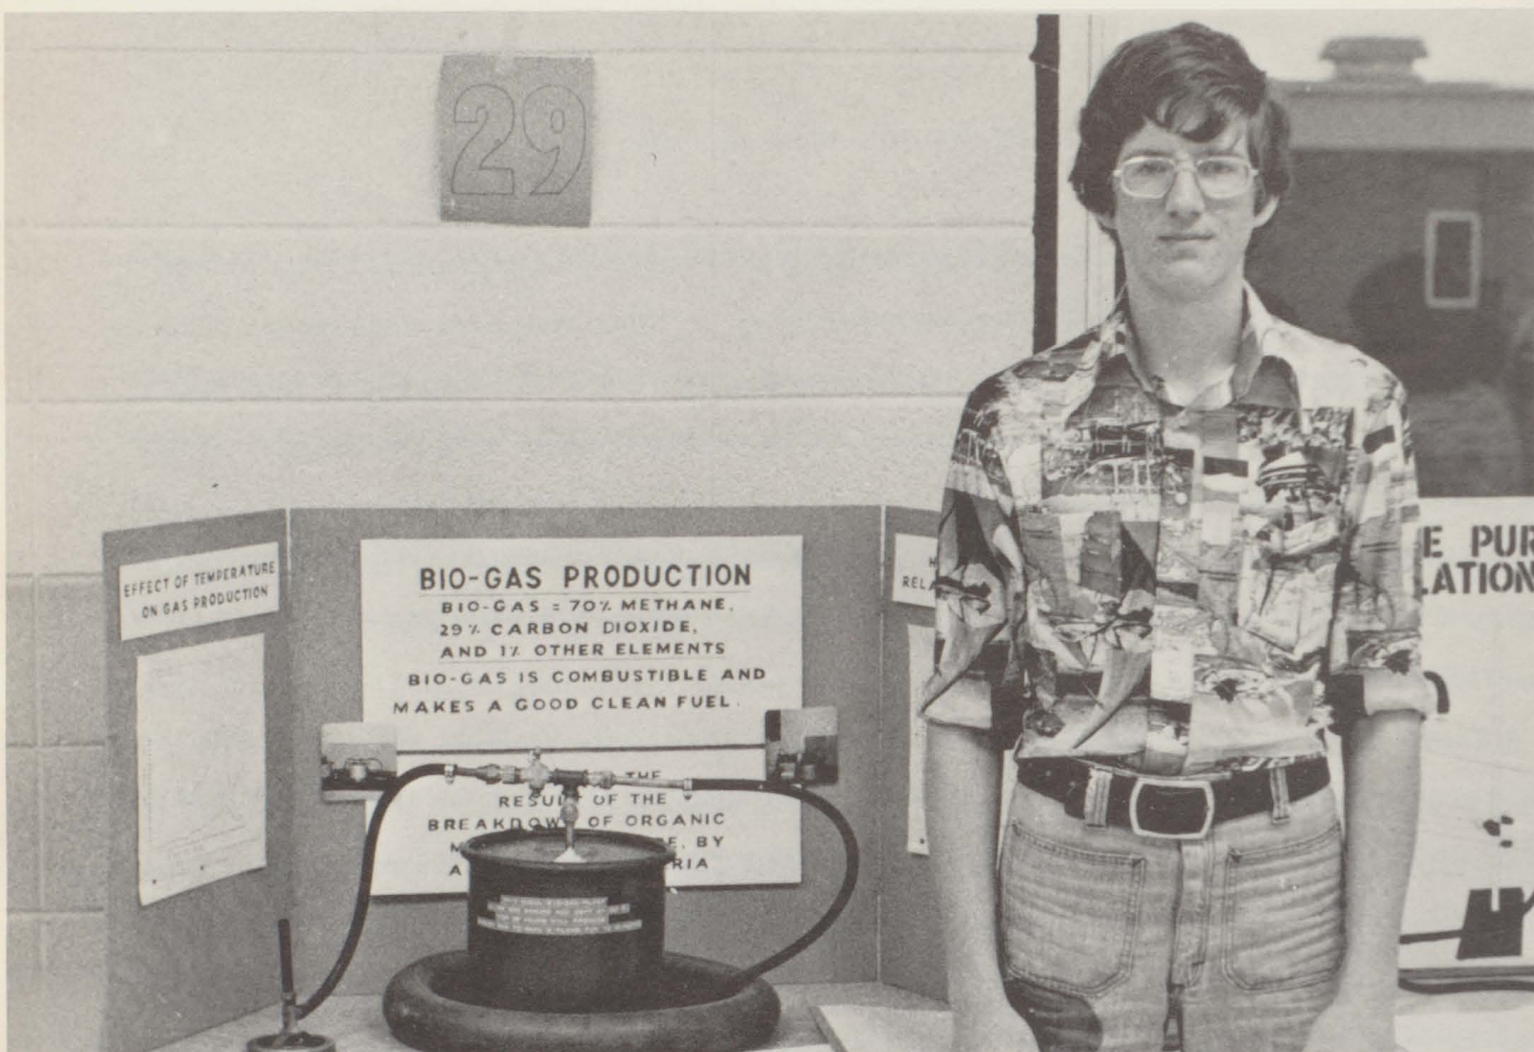

As President Kennedy said in his 1961 inaugural address, "The energy, the faith, the devotion which we bring to this endeavor can light our country and all who serve it, and the glow from that fire can truly light the world." I find strength in those words. The candle is lit, but we must keep the wick burning.

Finally, think about our heritage and what made it great. Think about what we can do to make the future better for our children and their children. We will find ourselves striving for a better life, a new beginning. As we reach for these things, be thankful you live in the United States, the greatest nation on the earth.

## *Editors Epilogue*

As this years RETROSPECT comes to an end and you are counting how many times your picture shows up, think of the many long, long hours spent on this annual.

Although I did a great deal of work, this publication needed the help of a great many other individuals. I would like to thank Ken Joyner for his photographic aid, Eileen Lovett for her clerical assistance, Ken Austin for his patience, Mr. McClendon and my teachers, my staff, and Mr. Bean, our advisor; but most of all my mother for her encouragement and toleration.
